

He's My Jesus

Someday He's gonna be returning
Like He said He would
If you don't know Him
You really, really should

He's got a place called heaven, it's His hood

He's my..... Jesus

He can stop the sun
He can stop the rain (*My Jesus, my, my Jesus*)
He can calm a storm
And even stop the pain

Heal your broken heart, and change your name

He's my.... Jesus

Want to get to know Him?
He's knockin' at your door
Inviting you to places, you've never been before
Water that's forever, if you take a drink
Lose your life to gain it, change it in a blink

My Jesus, my, my Jesus

Guitar solo

My.... Jesus

He's got the power to free us

And forgive our sin

Knock down the devil like a bowlin' pin

Son of God and heaven sent

Completely broke forever the power of sin and death

My Jesus, My Jesus

He can build a boat

He can make it float (my Jesus, my, my Jesus)

Bless my guitar note for note

He's gonna separate the sheep from goats

Well He's my Jesus (*repeat to end*)
